## Corporate Overview

Premium Surface Protection is a specialised service company focussed on the treatment and protection of all textiles in commercial and residential interior fit outs. PSP has the exclusive distribution rights to the world's leading fabric protector and flame retardant products. We have sourced the world's most technically advanced and effective textile protection systems available. They are the preferred anti-soil and stain treatment for premium hotel chains, cruise ships, airlines, public transport, theatres, corporate offices and custom made manufacturers of exclusive carpets, rugs and fabrics.

Premium Surface Protection has a fine tuned business structure which provides their clients with a highly effective preventative maintenance system. This preventative maintenance system extends both the original appearance of their valuable assets and therefore the life cycle of the assets, reduces scheduled maintenance, saves on costs

### Protecting the Beauty, Colour & Life of Your Furnishings

Premium Surface Protection company specialises in preventative maintenance solutions which focus on keeping your assets (carpet, rugs or furnishings) looking new for longer and decreasing your yearly maintenance costs.

Their products are a revolutionary system able to encapsulate the microscopic holes within the carpets' or fabrics' fibre. After application, the fibre keeps all it's natural properties like breath-ability, look and feel. Dirt is completely blocked from penetrating the fibres and lies on the outside of the fibre. Therefore, vacuuming is not necessary every day and when cleaning carpets, hot water is usually enough to remove contamination that has not been removed by the vacuum cleaner. The result is reduced wear and tear due to cleaning processes.

Furthermore, their products deliver antibacterial properties to carpets and fabrics to prevent the growth and spreading of bacteria, fungus and mould that can quickly grow and multiply in carpets, rugs, office chairs and other textiles.

We are unique in our market as our products do not contain any dangerous or harmful components and they have a long lasting effect..

The high profile clients and partners we work with are a testimony to our company ethos and the products we stand behind.

## Laura Furey - Managing Director, Designer Rugs NZ

Designer Rugs is one of New Zealand's leading custom made Rug specialists. We pride ourselves in delivering the highest quality products and services to our discerning clientele. When it comes to adding protection to our valuable rugs we use MicroSeal. Brad and his team not only offer a great service, they also take care and pride whist working with unique items. We highly recommend using Brad and the MicroSeal Team.

## Shane Jolly - Hotel Manager, Cordis Auckland

We wanted to send a note of thanks for the work that you did for us at the Cordis Hotel, Auckland.

As you are aware, the refurbishment covered many areas of the Hotel but in particular two highly trafficked areas, namely our Lobby Lounge and our Club Lounge.

With Guests in these areas consuming food and drink we wanted to ensure that the furniture would look its best for as long as possible .... The MicroSeal application has certainly proven its worth. Our chairs, couches and other soft furnishings are all still looking in top condition thanks to the process that you have used to protect these.
