Corporate Overview

Premium Surface Protection is a specialised service company focussed on the treatment and protection of all textiles in commercial and residential interior fit outs. PSP have sourced and hold the exclusive distribution rights to the world's most technically advanced and effective fabric and flame retardant products. They are the preferred anti-soil and stain treatment for premium hotel chains, cruise ships, airlines, public transport, theatres, corporate offices and custom made manufacturers of exclusive carpets, rugs and fabrics.

Premium Surface Protection has a fine tuned business structure which provides their clients with a highly effective preventative maintenance system. This preventative maintenance system extends both the original appearance of their valuable assets and therefore the life cycle of the assets, reduces scheduled maintenance, saves on costs.

Premium Surface Protection company specialises in preventative maintenance solutions which focus on keeping your assets (carpet, rugs or furnishings) looking new for longer and decreasing your yearly maintenance costs.

Their products are a revolutionary system able to encapsulate the microscopic holes within the carpet's or fabric's fibre. After application, the fibre keeps all its natural properties like breath-ability, look and feel. Dirt is completely blocked from penetrating the fibres and lies on the outside of the fibre. Therefore, vacuuming is not necessary every day and when cleaning carpets, hot water is usually enough to remove contamination that has not been removed by the vacuum cleaner. The result is reduced wear and tear due to cleaning processes.

Furthermore, their products deliver antibacterial properties to carpets and fabrics to prevent the growth and spreading of bacteria, fungus and mould that can quickly grow and multiply in carpets, rugs, office chairs and other textiles.

PSP are unique in the marketplace as their products do not contain any dangerous or harmful components and they have a long lasting effect.

PSP's high profile clients and partners are a testimony to their company ethos and high product standards.

We have been using Premium Surface Protection since 2017 and we haven't looked back.

The protection spray is very versatile and can be used on all our soft furnishings such as our sofas, chairs, and rugs. The protection gives our customers the peace of mind that if they have a spill, it won't ruin their beautiful furniture.

Premium Surface Protection have wonderful customer service and are always very quick to respond and help, and a call out is no problem, no matter where you are.
